

## **INITIAL TOUR OF JAILS REQUESTING ODOC CONTRACT**

This form is to be utilized for information gathering relating to the facility's physical plant and identification of any concerns that would prevent issuance of a contract. All areas of the jail will be toured and inspected for security and safety issues. The contract monitor will note the areas of outside exercise, programs, contact visits, and living areas that will be provided for ODOC inmates. Areas of concern will be identified with the jail authority during the tour.
